Liquidia Corporation

By: /s/ Michael Kaseta
Name: Michael Kaseta
Title: Chief Financial Officer and Chief Operating Officer

**Exhibit 99.1**

**Liquidia Corporation Reports Second Quarter 2026 Financial Results**

- YUTREPIA® (treprostinil) inhalation powder net product sales of approximately $170.4 million in the second quarter of 2026, up 31% from the first quarter of 2026
- Approximately 5,900 unique patient prescriptions and more than 5,000 patients treated between launch in June 2025 and July 31, 2026
- Recorded fourth consecutive quarter of increasing profitability, with net income of $74.7 million, adjusted EBITDA of $96.3 million and an increase in cash and cash equivalents of $61.4 million compared to the first quarter of 2026
- Progressing 10 clinical studies supporting YUTREPIA and L606 across known and new indications for inhaled treprostinil

**MORRISVILLE, N.C., August 12, 2026** – Liquidia Corporation (NASDAQ: LQDA), a biopharmaceutical company driven by science and compassion to revolutionize care for patients with challenging respiratory and vascular diseases, today reported financial results for the second quarter ended June 30, 2026. The company will also host a webcast at 8:30 a.m. ET on August 12, 2026, to discuss its financial results and provide a corporate update.

Dr. Roger Jeffs, Liquidia's Chief Executive Officer, said: "We are pleased by the sustained adoption of YUTREPIA as the inhaled prostacyclin of choice. The inhaled category has grown almost 40% since launch, and YUTREPIA has captured an ever-increasing share of that growth. We are building on that momentum by strengthening the clinical evidence for YUTREPIA in PAH and PH-ILD patients transitioning from other therapies, and advancing studies in new indications that may broaden its impact. Having reset the bar for tolerability and dose flexibility with YUTREPIA, we are excited to have begun site activation and enrollment in Re-Spire, our pivotal study for L606, which we believe can raise that bar even further, beyond any therapy currently available or in development."

**YUTREPIA Commercial Launch Highlights (as of July 31, 2026)**

- Received approximately 5,900 unique patient prescriptions since launch in June 2025
- Started more than 5,000 patients on treatment since launch in June 2025
- Prescription-to-start conversion remained strong above the 85% level as previously reported
- Increased total number of prescribers to more than 1,100 since launch, of which more than 30% have prescribed YUTREPIA to at least 5 patients

**Second Quarter 2026 Financial Results**

YUTREPIA sales led to the company's fourth consecutive quarter of increasing profitability with net income of $74.7 million and positive non-GAAP adjusted EBITDA of $96.3 million in the second quarter of 2026.

**Cash and cash equivalents** totaled $284.2 million as of June 30, 2026, compared to $190.7 million as of December 31, 2025.

**Product sales, net,** were $170.4 million for the three months ended June 30, 2026, compared to $6.5 million for the three months ended June 30, 2025. We began shipping YUTREPIA to our customers in the United States in June 2025, following receipt of full FDA approval for YUTREPIA on May 23, 2025. The increase of $163.9 million was due to higher volume of YUTREPIA sales.

**Service revenue, net,** was $1.3 million for the three months ended June 30, 2026, compared to $2.3 million for the three months ended June 30, 2025. Service revenue, net was related to the promotion agreement with Sandoz, Inc. pursuant to which we share profits from the sale of Treprostinil Injection in the United States. The decrease of $1.0 million was primarily due to the impact of unfavorable gross-to-net adjustments.

**Cost of product sales** was $10.8 million for the three months ended June 30, 2026, compared to $0.2 million for the three months ended June 30, 2025. Cost of product sales is related to sales of YUTREPIA. The increase of $10.6 million was primarily due to higher volume of YUTREPIA sales.

**Research and development expenses** were $17.2 million for the three months ended June 30, 2026, compared to $6.0 million for the three months ended June 30, 2025. The increase of $11.2 million or 185% was primarily due to a $7.0 million increase in expenses for our L606 program, a $2.0 million increase in expenses related to our YUTREPIA research and development activities, a $0.9 million increase in personnel expenses driven by higher headcount, and a $1.0 million L606 development milestone recognized during the second quarter of 2026.

**Selling, general and administrative expenses** were $57.4 million for the three months ended June 30, 2026, compared to $38.8 million for the three months ended June 30, 2025. The increase of $18.6 million or 48% was primarily due to a $10.0 million increase in personnel expenses and a $3.1 million increase in stock-based compensation driven by higher headcount, and an $8.6 million increase in commercial and consulting expenses to support the commercialization of YUTREPIA. These increases were partially offset by a $5.5 million decrease in legal fees related to our ongoing YUTREPIA-related litigation.

**Total other expenses, net** was $3.8 million for the three months ended June 30, 2026, compared to $4.1 million for the three months ended June 30, 2025. The decrease of $0.3 million was primarily attributable to higher money market balances offset by higher borrowings under our revenue interest financing agreement with HealthCare Royalty Partners IV, L.P.

**Income tax expense** was $7.0 million for the three months ended June 30, 2026. We did not recognize any income tax expense during the three months ended June 30, 2025.

**Net income** for the three months ended June 30, 2026, was $74.7 million, or $0.84 per basic and $0.74 per diluted share, as compared to a net loss of $41.6 million, or $0.49 per basic and diluted share, for the three months ended June 30, 2025.

**Webcast Information**

Liquidia will host a live webcast at 8:30 a.m. Eastern Time on August 12, 2026, to discuss the second quarter 2026 financial results and corporate update. The webcast will be available on Liquidia's website at https://liquidia.com/investors/events-and-presentations. A rebroadcast of the event will be available and archived for a period of one year at the same location.

**About YUTREPIA® (treprostinil) Inhalation Powder**

YUTREPIA is an inhaled dry-powder formulation of treprostinil delivered through a convenient, low-effort, palm-sized device. YUTREPIA is indicated for the treatment of PAH and PH-ILD to improve exercise ability. YUTREPIA was designed using Liquidia's PRINT® technology, which enables the development of drug particles that are precise and uniform in size, shape and composition, and that are engineered for enhanced deposition in the lung following oral inhalation. YUTREPIA was previously referred to as LIQ861 in investigational studies.

**About L606 (liposomal treprostinil inhalation suspension)**

L606 is an investigational, extended-release formulation of treprostinil administered twice-daily with a next-generation nebulizer. The L606 suspension uses a proprietary liposomal formulation to encapsulate treprostinil which can be released slowly at a controlled rate into the lung, enhancing drug exposure over an extended period of time. L606 is currently being evaluated in an open-label study in the United States for treatment of PAH and PH-ILD and is the subject of Re-Spire, a global pivotal placebo-controlled efficacy study for the treatment of PH-ILD.

**About Treprostinil Injection**

Treprostinil Injection is the first-to-file, fully substitutable generic treprostinil for parenteral administration. Treprostinil Injection contains the same active ingredient, same strengths, same dosage form and same inactive ingredients as Remodulin® (treprostinil) and is offered to patients and physicians with the same level of service and support, but at a lower price than the branded drug. Liquidia PAH promotes the appropriate use of Treprostinil Injection for the treatment of PAH in the United States in partnership with its commercial partner, Sandoz, who holds the Abbreviated New Drug Application (ANDA) with the FDA.

**About Pulmonary Arterial Hypertension (PAH)**

PAH is a rare, chronic, progressive disease caused by hardening and narrowing of the pulmonary arteries that can lead to right heart failure and eventually death. Currently, an estimated 45,000 patients are diagnosed and treated in the United States. There is currently no cure for PAH, so the goals of existing treatments are to alleviate symptoms, maintain or improve functional class, delay disease progression and improve quality of life.

**About Pulmonary Hypertension Associated with Interstitial Lung Disease (PH-ILD)**

PH-ILD includes a diverse collection of up to 150 different pulmonary diseases, including interstitial pulmonary fibrosis, chronic hypersensitivity pneumonitis, connective tissue disease-related ILD, and chronic pulmonary fibrosis with emphysema (CPFE) among others. Any level of PH in ILD patients is associated with poor 3-year survival. A current estimate of PH-ILD prevalence in the United States is greater than 60,000 patients, though actual prevalence in many of these underlying ILD diseases is not yet known due to factors including underdiagnosis and lack of approved treatments until March 2021 when inhaled treprostinil was first approved for this indication.

**About Liquidia Corporation**

Liquidia Corporation is a biopharmaceutical company driven by science and compassion to revolutionize care for patients with challenging respiratory and vascular diseases through precise, innovative therapies and applications of its proprietary PRINT® technology. PRINT enabled the development of YUTREPIA® (treprostinil) inhalation powder for the treatment of PAH and PH-ILD. The company is also developing L606, an investigational extended-release formulation of treprostinil administered twice-daily with a next-generation nebulizer, and currently markets generic Treprostinil Injection for the treatment of PAH. To learn more about Liquidia, please visit www.liquidia.com.

**Abbreviations**

1. PAH: pulmonary arterial hypertension. 2. PH-ILD: pulmonary hypertension associated with interstitial lung disease.

Remodulin® is a registered mark of United Therapeutics Corporation.

**Cautionary Statements Regarding Forward-Looking Statements**

This press release may include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this press release other than statements of historical facts, including statements regarding our future results of operations and financial position, our strategic and financial initiatives, our business strategy and plans and our objectives for future operations, are forward-looking statements.

Forward-looking statements, including statements regarding clinical trials, clinical studies and other clinical work (including the funding therefor, anticipated patient enrollment, safety data, study data, trial outcomes, timing or associated costs), regulatory applications and related submission contents and timelines, the timelines or outcomes related to patent litigation with United Therapeutics in the U.S. District Court for the District of Delaware and U.S. District Court for the Middle District of North Carolina, or other litigation between Liquidia and United Therapeutics or others, including rehearings or appeals of decisions in any such proceedings, the issuance of patents by the USPTO and our ability to execute on our strategic or financial initiatives, our estimates regarding future expenses, capital requirements and needs for additional financing, and potential revenue and profitability of YUTREPIA involve significant risks and uncertainties and actual results could differ materially from those expressed or implied herein. Our ability to maintain YUTREPIA's approval and to continue commercialization of YUTREPIA remain subject to ongoing litigation in which United Therapeutics is seeking injunctive relief, which could block our ability to continue to sell YUTREPIA for one or both of PAH and PH-ILD. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "would," and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives and financial needs. These forward-looking statements are subject to a number of risks discussed in our filings with the SEC, as well as a number of uncertainties and assumptions. Moreover, we operate in a very competitive and rapidly changing environment and our industry has inherent risks. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events discussed in this press release may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Nothing in this press release should be regarded as a representation by any person that these goals will be achieved, and we undertake no duty to update our goals or to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

**Use of Non-GAAP Financial Information**

This press release and the accompanying tables include U.S. Generally Accepted Accounting Principles (GAAP) and non-GAAP financial measures. For a description of such non-GAAP financial measures, including the reasons for using such measures, and reconciliations of such non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP, please see the section entitled "About Non-GAAP Financial Information" below.

**About Non-GAAP Financial Information**

To supplement our financial results presented in accordance with U.S. Generally Accepted Accounting Principles (GAAP), this press release includes certain non-GAAP financial measures, such as Adjusted EBITDA. We believe the use of such non-GAAP financial measures provides investors with additional insight into our operational performance. While we compute non-GAAP financial measures using a consistent method from quarter to quarter and year to year, we may consider whether other significant items that arise in the future should be excluded from our non-GAAP financial measures.

Adjusted EBITDA is a non-GAAP measure that represents net income for the period before the impact of interest income, interest expense, other income and expense, income taxes, depreciation and amortization, and certain items that impact comparison of the performance of our business either period-over-period or with other businesses.

Adjusted EBITDA should not be considered in isolation or as a substitute to net income or any other measure of financial performance calculated and presented in accordance with GAAP. Our calculation of Adjusted EBITDA may not be comparable to similarly titled measures of other companies because other companies may not calculate them in the same manner as we calculate these measures.

For a reconciliation of such non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP, please see the table titled “Reconciliation of Non-GAAP Financial Information” below.

Liquidia

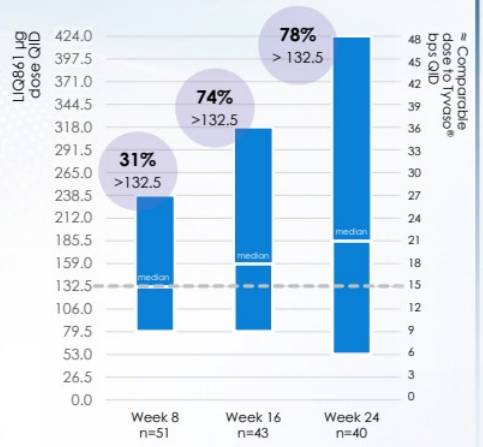
# YUTREPIA has raised the bar for inhaled dose range

## Data from ASCENT Cohort A (PH-ILD)

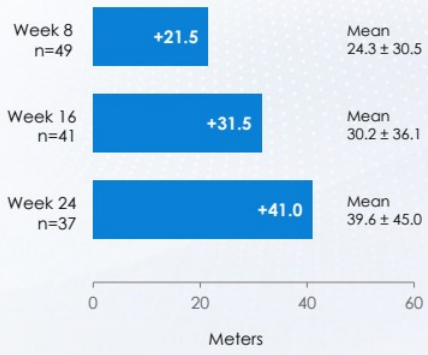
### Patients quickly titrated above ~15 bps.*

*Dose range at Week Visit*



### Median Δ6MWD continued to increase

*Change in 6-Minute Walk Distance (6MWD)*



### Cough scores essentially unchanged

*Simplified Cough Score at Week Visit*

Week 8: Sallee S, et al. Poster #1037. PHPN Symposium; 2025; Seattle, WA.; Week 16: Kolaitis NA. Oral presentation. Presented at: CHEST Annual Meeting; 2025; Chicago, Illinois; Week 24: Saggar R, et al. Poster #83. PVRI Annual World Congress; 2026; Dublin

*Tyvaso breaths-per-session (bps) comparable dosing is a normalization used to compare dosing across treprostinil products with different delivery frequencies and administration methods. Tyvaso is dosed by inhaled breath, with each breath delivering 6 mcg of treprostinil; total daily exposure calculated as breaths per session × sessions per day (4x daily). To enable comparison across products with different dosing regimens (e.g., twice-daily, once-daily), we translate each product's total daily dose into the number of Tyvaso breaths that would deliver a similar exposure. Comparable bps exposure reflects total daily exposure and is not a measure of breath count, delivery mechanism, or device design across products. Tyvaso® is a registered trademark of United Therapeutics Corporation.; Liquidia data on file

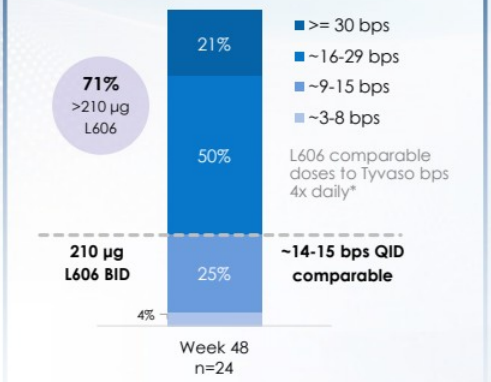
Liquidia

# L606 is raising the bar further for inhaled dose range

## Data from Ph3 U.S. Open Label (PAH, PH-ILD)

### 90%+ dosing well above historical target

*L606 dose range at Week 48 Visit*



### L606 may be most tolerable treprostinil to date

*Most common TEAEs (≥10%) thru Week 48**

| n=28 patients | TEAE* | | L606 Related | |
|---|---|---|---|---|
| | % | n | % | n |
| **Cough** | 32.1 | 9 | 14.3 | 4 |
| **Dyspnea** | 28.6 | 8 | 3.6 | 1 |
| **Fatigue** | 21.4 | 6 | 3.6 | 1 |
| **Dizziness** | 21.4 | 6 | 3.6 | 1 |
| **Nausea** | 10.7 | 3 | 3.6 | 1 |
| **Pruritis** | 10.7 | 3 | 3.6 | 1 |

### Durable response in Δ6MWD at peak & tr

*Median change from baseline in 6MWD*

Baseline 6MWD for all participants (n=28) = 395.5 m

Trough 6MWD conducted in morning of visit; Peak 6MWD conducted within 90-120 minutes after administering clinically observed dose

Liquidia data on file; 2025.10.29 LQDA RD Day webcast updatedv2.pdf (Oct 28, 2025)

*Tyvaso breaths-per-session (bps) comparable dosing is a normalization used to compare dosing across treprostinil products with different delivery frequencies and administration methods. Tyvaso is dosed by inhaled breath, with each breath delivering 6 mcg of treprostinil; total daily exposure calculated as breaths per session × sessions per day (4x daily). To enable comparison across products with different dosing regimens (e.g., twice-daily, once-daily), we translate each product's total daily dose into the number of Tyvaso breaths that would deliver a similar exposure. | Program | Phase II / Phase III / Phase IV | Diseases | Name | Objective | Status |
|---|---|---|---|---|---|
| **LIQ861*** (treprostinil) inhalation powder 4x daily, DPI<br><br>*FDA approved LIQ861 to treat PAH and PH-ILD using brand name YUTREPIA® (treprostinil) inhalation powder | NCT06129240 | **PH-ILD** | *ASCENT Cohort B* | Safety & efficacy of transitioning from Tyvaso®, Tyvaso DPI® to YUTREPIA | Recruiting |
| | NCT07759804 | **PAH** | *LTI-403* | Safety and feasibility of transitioning from oral selexipag to YUTREPIA | Initiate Q3 |
| | | **PAH** | *SPRINT* | Hemodynamic study of high doses of YUTREPIA | Initiate Q4 |
| | | **PAH** | *TRANSITION-PAH* | Safety and efficacy of transitioning from IV/SC treprostinil to YUTREPIA on background sotatercept | Initiate 1H |
| | | **PAH** | *TRECOR* | PD effect on RV hemodynamics by continuous wireless telemetric pressure monitoring | Initiate 1H |
| | | **PH-COPD** | *LTI-306* | Safety and efficacy in placebo-controlled RCT | Initiate 2H |
| | | **PPF, IPF** | | Safety, efficacy and dose titration | Initiate 1H |
| | NCT07748000 | **SSc-RP** | *RE-WARM* | Safety, tolerability and PD in dose-finding study | Initiate 4Q |
| **L606** treprostinil liposome inhalation suspension 2x daily, nebulizer | NCT04691154 | **PAH, PH-ILD** | *PBI L606p3* | Safety and efficacy in U.S. based study | On-going |
| | NCT07285655 | **PH-ILD** | *Re-Spire* | Safety and efficacy in global, placebo-controlled RCT | Recruiting |
| | | **PAH** | *TRECOR* | PD effect on RV hemodynamics by continuous wireless telemetric pressure monitoring | Initiate 1H |

Pulmonary Arterial Hypertension (PAH), Pulmonary Hypertension associated with Interstitial Lung Disease (PH-ILD), Pulmonary Hypertension associated with Chronic Obstructive Pulmonary Disease (P
COPD) Systemic Sclerosis-associated Raynaud's Phenomenon (SSc-RP), Idiopathic Pulmonary Fibrosis (PPF), Progressive Pulmonary Fibrosis (PPF), Pharmacodynamics (PD), Randomized Controlled T
(RCT), Dry Powder Inhaler (DPI); Right Ventricle (RV); Tyvaso® and Tyvaso DPI® are registered trademarks of United Therapeutics Corporation

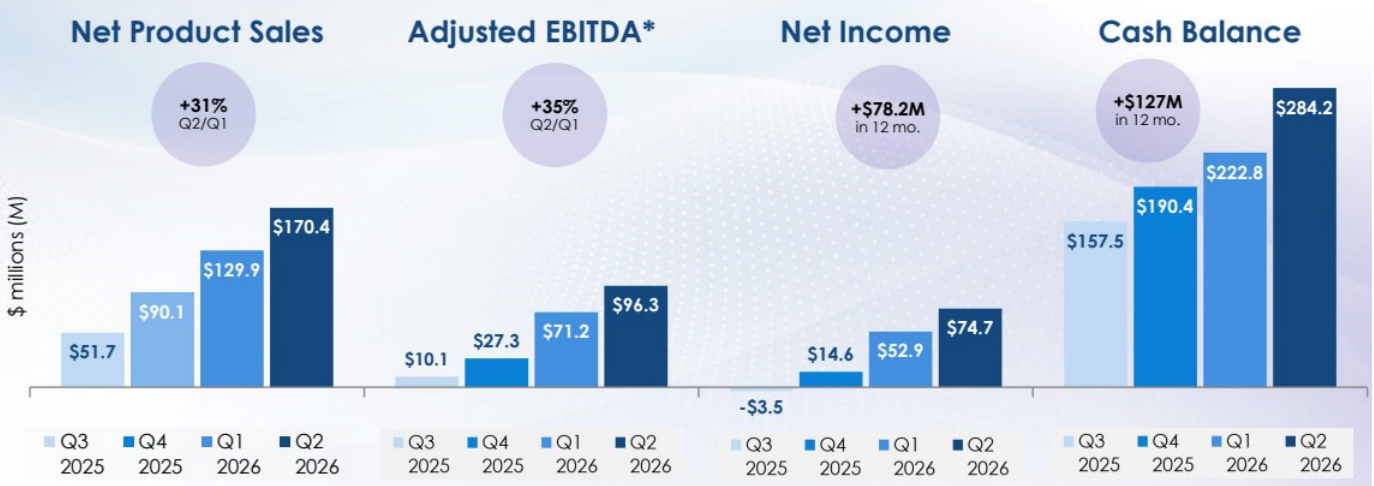
# Growing profitability over last 4 quarters

Exited Q2 2026 at a ~$682M annualized net product sales run-rate



*Non-GAAP financial measure. See definition and full reconciliation on slide 10 or in our earnings press release at https://liquidia.com/investors/press-releases.

Liquidia

# Second quarter 2026 highlights

## LEADING CATEGORY GROWTH

**$170.4M** net product sales

+31% Q/Q growth in Q2 2026 from Q1 2025

- ~5,900 unique patient prescriptions through 31-Jul
- More than 1,100 prescribers
- 30% of physicians prescribing to ≥5 patients through 31-Jul

## BROADENING THE FRANCHISE

**10** studies

On-going, recruiting or planned clinical studies in 2026 & 2027

- Recruiting ASCENT Cohort B Tyvaso Transitions (PH-ILD)
- Enrolling Phase 3 Re-Spire globally (PH-ILD)
- Advancing IPF/PPF, PH-COPD, SSc-Raynaud's programs

## SELF-FUNDED INVESTMENT

**$96.3M** adj. EBITDA*

4th consecutive quarter of Increasing profitability

- $284.2M ending cash up $61.4M from 1Q'2026

*Non-GAAP financial measure. See definition and full reconciliation on slide 12 or in our earnings press release at https://liquidia.com/investors/press-releases.
